INDIANA INSTITUTE FOR THE EDUCATION OF THE BLIND
FOUNDED 1847

HISTORICAL

In the spring of 1844, while attending the General Assembly of the Presbyterian Church which was being held in Louisville, Kentucky, James M. Ray, an Indianapolis philanthropist, was invited with the rest of the body to attend exercises at the Kentucky Institution for the Education of the Blind at that place. Deeply impressed by the work of the pupils, Mr. Ray desired the same school advantages for the blind children of Indiana. On his invitation, the Superintendent and a number of pupils from the Kentucky school gave an exhibition of their work to the next succeeding Indiana Legislature. The result was an act levying a tax of two mills on each \$100.00 of taxable property to send the blind children of Indiana to the School for the Blind in Kentucky, or in Ohio until a school could be established in this State. This act also provided that James M. Ray, George W. Mears, the Auditor of State, and the Treasurer of State, should constitute a Board to superintend the use of the funds raised by taxation. This Board advertised in numerous papers for eligible students; it sent circular letters to all known suitable blind persons and employed W. H. Churchman, previously Superintendent of the Tennessee Blind School, as an agent to search the State for blind children of suitable age and capacity. By these means twenty children were found and sent to the school in Kentucky or the school in Ohio.

In 1846 the Legislature of Indiana made an appropriation of \$5,000.00, to purchase a site for a school for the blind. A tax of one cent on each \$100.00 was levied for its support. This same legislature enacted a law establishing a blind institute to go into operation as early in the year 1847 as the necessary arrangements could be effected.

On October 1, 1847, the state pupils having been recalled from Kentucky and Ohio, the Indiana School was opened in a rented building. Nine pupils were present when the School commenced and twenty-five were enrolled during the first year.

By an act (December 5, 1848), the School was to be free to all proper persons. The Board of Trustees, by this act, was to be the absolute judge of "proper" persons to be admitted. Soon the Board purchased for \$5,000.00 the eight acres which was the site of the School until September of 1930.

A three-story, brick building was erected in 1848, at a cost of \$5,000.00, on ground previously purchased, and the session of that year was held therein. In 1850, the main building was commenced, and completed and occupied by the School in 1853. It cost a little in of excess of \$112,000.00.

On recommendation of the Governor, the Legislative session of 1851-52, changed the support of the School from a special tax to direct appropriations and also constituted a Board of six Trustees for its management. In 1859, the Board was again reorganized by an act of the General Assembly and made to consist of two Trustees and a President common to the Boards of the School for the Blind, the School for the Deaf and the Hospital for the Insane. This, proving unsatis-

factory in a few years, was changed to a board of control consisting of three members.

The Industrial Department was organized early in the School and was operated under the contract system until 1895, when this work was made a part of the regular school work and controlled as the other departments.

In 1889, an appropriation of \$45,000.00, was made to complete the original plan of the main building. Other buildings have been constructed as follows: In 1879 barn, \$2,300.00; 1889 power house and laundry, \$2,500.00; and a bake shop, \$1,000.00; 1898 a greenhouse, \$2,264.80; In 1904 girl's dormitory, \$42,438.66; 1910, boy's dormitory, \$59,190.35. The above with various appropriations for auditorium, other additions and remodeling, entailed an investment on buildings in the former plant of over \$300,000.00, which represented a replacement value in 1920 of over \$1,000,000.00.

In 1907, the law under which the School is now operated was passed. This law requires a nonpartisan board of Trustees of four educationally qualified members, placed all appointment of employees in the Superintendent, and reaffirms the strict educational purpose of the School.

The special session of the Legislature of 1920 (chapter 20), created the World War Memorial Plaza, which included the two squares then belonging to the School, thereby entailing a loss of \$3,000,000.00, to the School for the Blind (site, \$2,000,000.00; replacement of buildings, \$1,000,000.00). By an act of 1923 (chapter 72), a complete plan for a new school, with sufficient appropriations to commence it, was provided, and a commission appointed by the Governor soon after to make the purchase of a suitable site. This commission consisting of Walter E. Rich, J. F. Cantwell, Scott Brewer, Ralph Todd, and the Superintendent, made a careful and personal inspection of over eighty sites and finally in 1925, selected what is known as the McGowan site, comprising sixty acres and costing \$72,000.00, as the place best suited for the School. There were constructed on this site the laundry, garage and power house. The Legislature of 1927 (chapter 121) appropriated \$400,000.00 to continue the construction of buildings in accordance with the plan of 1923. This appropriation was sufficient to erect the boys' unit, the industrial building, the main building, the music hall, leaving the inside finish of these and the construction of the girls' unit to appropriations to be requested of the next following Legislature. The Legislature of 1929 appropriated \$425,000.00, which was sufficient to complete, ready for occupancy, the new plant, and the School opened in September of 1930, at the new site.

REPORT OF THE INDIANA SCHOOL FOR THE BLIND

June 30, 1952

To the Honorable Henry F. Schricker, Governor of Indiana:

Our state of Indiana may well be proud of the educational institution which she has provided for the care and education of her blind children—for this school with its buildings, equipment and grounds is one of the best in the United States. Much credit is due to the Teachers for their patience and devotion to the children, and to the rest of the employees who are loyal to the School. One is deeply impressed by the cheerful atmosphere surrounding the school.

The Board of Trustees in cooperation with the Superintendent, is most eager to adjust and improve an educational program, equipping our students to live normally in this ever-changing machine-age.

Respectfully submitted,

AGNES DEPRIEST MORRIS,
President, Board of Trustees.

THE REPORT OF THE SUPERINTENDENT

To the Honorable Board of Trustees of the Indiana School for the Blind:

Madam and Sirs:

It is my pleasure to submit to you this One-Hundred-Sixth Report concerning the Indiana School for the Blind. It is the intention to give information to parents, students, and public officials which will enable them to form an accurate picture of the aims, purposes, and accomplishments of the school. It should be stated that the school is entirely educational in its functions. We are eager to admit all eligible students, and to make a sincere effort to give them instruction which will develop the best in their characters and personalities. To educate a blind child means that he must be given knowledge of the realities. This means that he must know how to read and understand literature, history, geography, science, mathematics, and music. In addition, he must acquire the capacity to work with his hands and to make the necessary social adjustments, so that he can live harmoniously with his associates. This school offers instructions and uses its facilities to assist its students in acquiring the desirable aims.

The academic department affords each student the opportunity to do serious work in mathematics, science, literature, history, and music. The vocational department gives instruction to boys in mop making, piano tuning, broom making, and chair caning. Our girls receive training in cooking, sewing, rug weaving, dress making, and crocheting.

The parents and students have shown interest and cooperation in meeting the problems that have arisen during the school year. This interest and good will has been greatly appreciated by the teachers, housemothers, and myself. We are all eagerly attempting to make this a better place for the children to receive an education.

We are happy to list the names and addresses of our four graduates:

Nancy Joanne Burgett, R. R. 1, Box 148, Greenwood

Fredrick David Gentry, R. R. 1, Spencer

Emma June Heck, Morristown

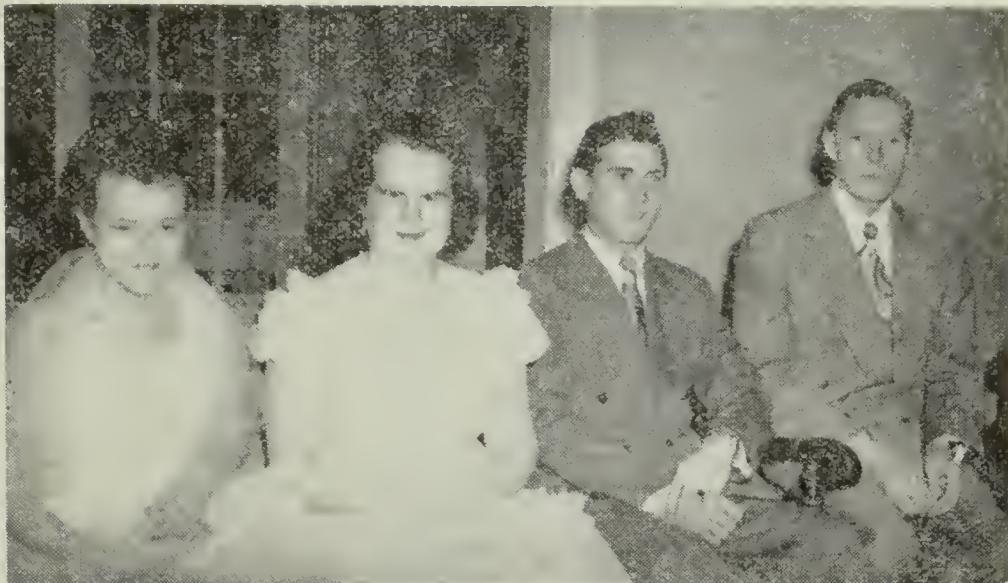

John Thomas Morris, 302 E. 9th St., Peru

I wish to express my appreciation to the student body, parents, members of the Alumni Association, and to our employees for their loyal cooperation and spirit of helpfulness. I desire, especially, to thank the Board of Trustees for their kindness and understanding in all our undertakings. It is a pleasure, also, for me to express my appreciation for the interest and helpfulness of honorable Henry F. Schricker, Governor of Indiana. He has been very much interested in our work and has been helpful and kind to this school in many ways.

This One-Hundred-Sixth Report is respectfully submitted.

ROBERT LAMBERT, *Superintendent.*

GRADUATES OF 1952

Left to right: EMMA JUNE HECK, NANCY JOAN BURGETT, JOHN THOMAS MORRIS, FREDERICK DAVID GENTRY.

GRADUATING CLASS OF 1952

The graduating class of 1952 was composed of two boys and two girls. They were Emma June Heck, Nancy Joanne Burgett, John Thomas Morris, and Frederick David Gentry. The class ranked high scholastically and each member took an active part in all school activities. We wish them well and every success in all their future undertakings.

Emma June Heck is from Morristown, Indiana. She spent one year in the Public Schools, came to the Indiana School for the Blind in 1940. In High School she majored in English and History. During her senior year Emma June was president of the Girl's Athletic Association, Assistant Editor of the Indiana News Writer's Association and Secretary of the Philomathean Society. She was presented the Ruby Medal by Kiwanis International at the class day program for outstanding ability as a student for school activities and citizenship. Emma June plans to enter the business world after graduation.

Nancy Joan Burgett is from Greenwood, Indiana and spent her entire school life at the Indiana School for the Blind, having enrolled in 1940. Joan majored in English and History. She found time in her Senior year to act as Vice-President and Chairman of the executive committee of the Girl's Athletic Association, Editor-in-chief of The Indiana News Writers Association, and was Chairman of the Constitution Committee of the Philomatheon Society. Joan was awarded the diamond medal by Kiwanis International and plans to enter Indiana University next Fall to further her education in journalism.

John Thomas Morris lives with his parents, Mr. and Mrs. Walter Morris in Peru, Indiana. Tom received his common school education in Peru and attended High School in that City, before coming here in the Fall of 1947. During his senior year he was business manager of the Indiana News Writer's Association and Chairman of the Circulating Committee. Tom plans to go into the furniture business with his father after graduation.

Frederick David Gentry is from Freedom, Indiana, where he lives on a farm with his brother, Abrell Gentry. After attending Public Schools in Freedom, David came to the Indiana School for the Blind in 1939. In High School he majored in English and Social Science. He was active in student activities, as a member of the Philomathean Society, being a Member of the Constitution Committee. David plans a future in floral designing.

Class motto—"To thine own self be true,
And it must follow as the night the day
Thou canst not then be false to any man."

Class colors—Green and gold

Class flower—Red rose

PROGRAMS OF THE YEAR

A number of programs and entertainments have been given by the school students during the year, both here at the school and at other places over the state. It is the belief of the school that such activities promotes the self-expression and confidence in themselves for our students and that such training is as necessary as other parts of the work of the school. Illustrative programs follow:

GIFTS, BEQUESTS AND FUNDS

During the past fiscal year, the Indiana School for the Blind was the recipient of several gifts from interested individuals and groups. A listing of some of these, plus an accounting of established funds, follow.

GRADUATES' FUND

In many cases pupils who have graduated from this school do not have the means available to begin a business. The cost of supplies for entering business is not great, but in many instances wholly beyond the reach of graduates. At present the amount in this fund is not sufficiently large to permit more than a token gift.

Following is shown a list of the contributions to this fund, the withdrawals and earnings, and the present balance of the account.

RICHARD S. ROGERS FUND

The Indiana School for the Blind was the beneficiary of a bequest from the estate of Richard S. Rogers, a lifelong resident and businessman of Winamac who died in California. In accepting the gift, the Board of Trustees placed the amount in a special account, known as the Richard S. Rogers Fund, which is deposited in the Indiana National Bank. An accounting of this fund follows:

Original bequest		\$500.28
Withdrawal February 8, 1946, to pay inheritance tax due State of California		\$31.50

Balance, July 1st, 1952		\$447.02

ALL-STAR FUND

Annually the Indianapolis Star and News sponsors a basketball game played by the graduating stars of the Indiana and Kentucky high schools. The proceeds of the game are used for various charities. The school received \$300.00 from this Fund December 1st, 1951. This money was used to defray some of the cost of the Christmas Play, and to give the entire student body a Christmas Party, at which time each student was presented with a gift purchased with money from this Fund.

KIWANIS INTERNATIONAL

The Kiwanis Club presented the school with a diamond and ruby medal to be awarded on a basis of scholarship, school activities and citizenship. Nancy Joanne Burgett was awarded the diamond medal, and Emma June Heck was the winner of the ruby medal.

SENIORS PRESENTED BRAILLE WATCHES

Only those who are sightless can fully comprehend the smallest and the largest gestures which can please the blind. Our four graduates, Emma June Heck, Frederick David Gentry, Nancy Joan Burgett and John Thomas Morris were doubly happy on May 7th, when they were awarded Braille wrist watches by the Hon. Gov. Henry Schricker. The giver of the watches, Mr. Roy Lanham, to whom they gave the thanks—because, having been blinded in World War I, he knows what a Braille watch can do for those in a dark world.

Mr. Lanham, the past four years, has quietly sent his gifts of Braille watches to the graduating class, to be presented on Class Day. To this Class was added the additional thrill of meeting Governor Schricker. We, of the School for the Blind, also give our thanks to Mr. Lanham.

INFORMATION

1. The purpose of this institution is purely educational. The aim is to give a practical education to the young blind of both sexes residing in the state. Both common and high school branches are taught. An extensive course in music is available to all who are qualified for such work. A thorough course is given in several industrial trades, such as broom-making, cane-seating chairs, wood carving, piano tuning. The girls learn sewing (by hand and machine), knitting, crocheting, etc. The purpose is to make the pupils useful, contented, self-supporting citizens. A gymnasium is equipped and a special teacher drills the pupils in systematic physical exercises. Pupils when not in recitation are in charge of supervisors.

2. The school term runs nine months, with opening and closing dates decided by the Board of Trustees. For the school year 1952-53, the opening has been scheduled for September 8. Pupils should be sent to the institution on the day school begins, not before.

3. Persons who are under seven or over twenty-one years are not admitted.

4. No person of imbecile or unsound mind or confirmed immoral character or incapacitated by physical infirmity for useful instruction will be knowingly received into the school, and in case any such pupil shall, after a fair trial, prove incompetent for useful instruction or disobedient to the regulations of the school, such pupil will be thereupon discharged. Each child should be taught to care for his natural wants, to feed himself, to dress himself, to talk intelligently and to do similar necessary things, before he is eligible to admission into this school.

5. This school is maintained by the state, and tuition, board and laundry are furnished free of cost to all pupils. The parents or guardians must defray the traveling expenses of the pupils and supply them with clothing suitable for summer and winter wear in such quantity as will permit of necessary changes.

6. It is required that every pupil shall be removed from school during the annual vacation of the school, as well as at any other time such removal may be deemed necessary by the proper authorities thereof; and in this requisition, provision is made by law to deliver such pupil to the trustee of the township where he resided before coming to the school.

7. A parent or legal guardian desiring the admission of a child is required to fill the prescribed blank application accurately and fully, giving truthful answers to the interrogatories therein contained and procuring a certificate of a justice of the peace on the form thereunto attached and forward the application to the superintendent of the school: and the child must in no case be sent until such application shall have been received and favorably responded to by the Superintendent. Whenever the county residence or legal control of a pupil is changed, a new application must be filed, so that the record may be kept up to date.

8. The Superintendent will cheerfully give information in regard to the school, and will thankfully receive any information concerning those who should be receiving its benefits.

9. Persons bringing pupils to school or visiting them cannot be accommodated with board and lodging.

10. That the work of the school may be done to the highest good of all it is necessary that every pupil shall be present at the opening of the term. Faithful work and prompt and regular attendance are essential to advancement and promotion. No pupil who is tardy at the beginning of the term, or irregular in attendance, or drops out before the close of the term, can hope to do acceptable work and receive promotion. Unless there is an excellent reason for doing otherwise, every pupil should be present on the first day and remain throughout the term.

11. Each pupil should be supplied with the following articles of good quality clothing and supplies. Each article of clothing should be distinctly marked with the owner's name in indelible ink:

Boys—Two hats or caps, two suits of clothes, two extra pairs of trousers, two suits of winter and two suits of summer underwear, two night shirts or two suits of pajamas, two pairs of shoes, one pair of gymnasium shoes, six handkerchiefs, two pairs of suspenders, a tooth brush, a clothes brush, a hair brush and a comb. Small boys should be supplied with an extra suit of winter underwear. Money for hair cuts each three weeks.

Girls—Four wash dresses, one Sunday dress, four night dresses or four suits of pajamas, four suits of summer underwear, three suits of winter underwear (all with short legs and sleeves), three wash petticoats or slips, six pairs of stockings, six handkerchiefs, one summer coat, one winter coat, one sweater, one summer hat, one winter hat, one pair of gymnasium shoes, one pair of rubbers, two pairs of shoes, one bath robe, one pair of bedroom slippers, also tooth brush, dentifrice, comb, hair brush, clothes brush, wash cloths. Money for hair cuts each three weeks.

The above supplies will be necessary within the year and must be supplied so that the children may be kept clean and comfortable. When parents are not able to furnish the required supplies, they should call upon the township trustee, who will provide for the needs of those who are worthy.

12. It will be necessary for parents or guardians to provide for all incidental expenses of pupils. It will likewise be necessary for all persons sending children to the school to furnish them transportation to their homes at the close of the term.

13. On admission of any child at the commencement of the school term a certificate from a practicing physician that the child is free from any contagious or infectious disease may be required.

Respectfully,
ROBERT LAMBERT,
Superintendent.
